Helped Plan Invasion Quisling Asked Nazis To Put Nurse Officers Into German Prisons

From CP, AP and British UP Dispatches
OSLO, Aug. 25.—(AP)—Pridget Hammerstad, testified today that Vidkun Quisling had requested German occupation authorities to remove Norwegian military officers to Nazi prison camps.
Hammerstad, aide to Gen. Nikolaus Von Falkenhorst, Nazi commander in Norway, said Quisling wanted the Norwegian officers out of the way "because they were impossible to work with and might make serious difficulties."
Quisling also demanded a forced labor service for Norway, Hammerstad declared.
Twenty witnesses, most of them for the defence, remained to be heard today as the first week of the trial of Quisling for high treason drew to a close.
Future Status
Hammerstad, said to Gen. Nikolaus Von Falkenhorst, Nazi commander in Norway, said Quisling wanted the Norwegian officers out of the way "because they were impossible to work with and might make serious difficulties."
Quisling also demanded a forced labor service for Norway, Hammerstad declared.
Twenty witnesses, most of them for the defence, remained to be heard today as the first week of the trial of Quisling for high treason drew to a close.

Chieng Seeks Negotiations
On Hong Kong
CHUNGKING, Aug. 25.—(AP)—President Chiang Kai-Shek said today that the status of Hong Kong would "not be changed without negotiations."
He said he would not send troops to the British crown colony to receive the Japanese surrender there, Gen. Chiang said, because such a move might cause misunderstanding among the Allies.
I now declare to the nation and the world at large that the status of Hong Kong, which is based on treaties, will not be changed with out going through negotiations with Britain," he said. "China will not resort to diplomatic means to recover concessions and leased territories, including Kowloon, from other powers."
ASIA INDEPENDENCE
The generalissimo also declared that Outer Mongolia should be granted independence and Tibet should be made autonomous.
Some sources said this statement could have been designed to prepare the nation for the new Russian-Chinese treaty, whose terms have not yet been announced.
Gen. Chiang said the major aims of China's national revolution were the reestablishment of China's territorial and administrative integrity, the Manchuria, the recovery of Formosa and the Pescadores, and the restoration of Korea's independence.
Burma, Thailand and French Indo-China, he added, should be given "friendly help" in attaining independence.

Gas Ration Ending
Boon to Tourists
By The Canadian Press
The end of gas rationing in the wake of victory over Japan has boosted tourist traffic in Canada to peak proportions. From coast to coast, steak-hungry Americans are swarming across the border to enjoy the climate, scenery and food.
A survey today by The Canadian Press brought similar stories from border points across the Dominion. Motor traffic from the United States in some cases, has been four times as great as before Aug. 15, when rationing was lifted.

Legislation May Make "Canadian" Legal Nationality
OTTAWA, Aug. 25.—(CP)—Possibility of legislation making legal "Canadian" as a nationality was indicated today in recent comments among a number of departmental officials. It was considered that legislation might be submitted to the coming session of Parliament, opening Sept. 6.
Should such legislation be passed Canadian would be able to describe themselves as Canadians instead of British subjects in a census and for immigration purposes.

To Avoid Chaos
Isley, Gordon Stress Need
Of Continuing Price Control
OTTAWA, Aug. 25.—(CP)—Premature removal of price controls in Canada would invite chaos such as followed other wars, Finance Minister Isley said last night in a joint broadcast with Donald Gordon, price board chairman.
In speeches prepared for delivery during a 15-minute broadcast over the national radio, Isley and Gordon stressed the need for continuing price controls to avoid chaos.
"While victory in the Pacific marks the end of the danger of inflation it is just the beginning of the end

From 150 to 140 Point Score for Army Discharges Decreased

OTTAWA, Oct. 25.—(CP)—Priority point score for immediate discharge from the army has been decreased from 150 to 140 points, defence headquarters announced today.
Priority point scores are computed on the basis of two points for each month of home service, three points for each month of overseas service and 20 per cent additional for married men.
All scores are computed as of March 31 with no points being allowed for service after that date.
It was reported yesterday that the service has been discharging men at a rate of 33,000 a month since June. The lowering of the point score will accelerate that rate for the army.
The army has been discharging at a rate of about 13,000 a month—a figure established to a considerable degree by the demands of the Pacific war. A large proportion of the men brought back from Europe since VE-Day were volunteers for the Pacific. They now go into the demobilization stream with priorities no higher than if they had not volunteered.
The emphasis in returning men from Europe now will fall upon those with high point totals. The army recently announced a series of new categories under which discharges would be granted.

Wing Cndr. Bannock
Noted Edmonton Airman Honored: Is Awarded DSO
The award of the Distinguished Service Order to Wing Commander Russell Bannock, DFC, of Edmonton, was announced Saturday at Ottawa. Nine other members of the RCAF received the Distinguished Flying Cross, according to the same announcement.
Wing Commander Bannock, a Mosquito pilot distinguished himself in the fight against robot submarines, and for a time was in command of the City of Edmonton squadron. While a flight commander with the famous group, he was credited with destroying 20 robot vessels in his own hands over the sea before the robot attacks started had piled up a formidable score.
The posthumous award of the Distinguished Service Order to Wing Commander Bannock was a graduate of Eastwood High school, which he attended after his family had moved into Edmonton from North Cooking Lake, where his father was a railway employee. He then worked for several years in the fur and mink industry and on his return to Edmonton started taking private flying lessons.
Shortly after the outbreak of war, Bannock joined the RCAF and was employed for four years as an instructor at Camp Borden and Arrmap in Ontario.
His enviable record as a fighter was built up in a comparatively short space of time.
His mother, Mrs. J. Bannock, lives at 1229 67 street.

Pressure by Allies Halts Bulgar Vote
By BRUCE W. MUNN
Exclusive to The Edmonton Bulletin
LONDON, Aug. 25.—(BUP)—Bulgaria yielded to Allied pressure today and postponed indefinitely her national elections scheduled for tomorrow.
The postponement represented a diplomatic victory for Britain and the United States, who had protested to Sofia that Bulgaria's present single-party system made free elections impossible.
The Bulgarian government announced in a Sofia broadcast that the decision was made on recommendation of the Allied control commission.
Since Russia also is a member of the control commission, this indicates that the Soviet government also was satisfied with the decision.
The Bulgarian government announced in a Sofia broadcast that the decision was made on recommendation of the Allied control commission.

Shows Forecast Over Week-End
Showers and fresh winds are predicted for Saturday night with the forecast for Sunday reading "Fair and a little warmer."
Maximum temperature Friday was 82, and the minimum 56. The overnight low temperature averaged 53, and at 2 p.m. had risen to 61.
Estimated high for today is 73. The overnight low is estimated at 56. The high tomorrow, 75.

Gale Hits Coast
NEW ORLEANS, Aug. 25.—(AP)—A wide section of coastline was threatened yesterday by a 30-mile-an-hour hurricane which moved northward from the lower Gulf of Mexico. The weather bureau located the storm center 30 miles south of the mouth of the Mississippi, and said it was moving north at about 10 miles per hour.
The minimum wind speed by the end of the year the three squadrons which will engage in transport of prisoners will be sent in Canada.

No Details Given Japs Commit Mass Hara-Kiri at Palace
By HENRY SUPER
Exclusive to The Edmonton Bulletin
SAN FRANCISCO, Aug. 25.—(BUP)—Radio Tokyo said today that Japanese were committing mass Hara-Kiri at the palace of Emperor Hirohito's reported that "large numbers" were killing themselves, presumably in the traditional manner of disembowelment by dagger, after the occupation of their homeland ended.
"The killing" was understood by the Allies of the western nations.

Occupation of Japan Delayed 2 More Days By Prank of Weather

From CP, AP and British UP Dispatches
GENERAL MACARTHUR'S HEADQUARTERS, Manila, Aug. 25.—Stormy weather stepped in today to give the Japanese two days respite before the landing of the Allied Army of Occupation. Three typhoons, swirling out of the western Pacific, forced General Douglas MacArthur today to postpone initial Allied landings in Japan until Tuesday, his own arrival until Thursday, and the signing of the surrender terms until September 2.
General MacArthur announced the 48-hour delay in the landing schedule for more than 15 hours before the first American troops were to fly to Atsugi airfield, 14 miles southwest of Tokyo, and were to land for mass air and sea-borne landings two days later.
He said that there was no definite assurance that the new schedule could be followed, but added: "It is hoped that by the time wind and waves will have abated, an extent that will permit our forward move."

Beat Communists
Chiang Troops Enter Nanking, Former Capital
CHUNGKING, Aug. 25.—(AP)—National Government troops have crossed the Yangtze river and entered Nanking, former capital of China, today, after formal surrender of Japanese forces in China will be signed, said a Chinese high command announcement today.
Gen. Chiang Kai-Shek's troops first entered Nanking yesterday and then entered the city today, after formal surrender of Japanese forces in China will be signed, said a Chinese high command announcement today.
Gen. Chiang plans to establish his capital in that city, in central China, province 385 miles upstream from Shanghai. It is 730 miles from the Yangtze river, the wartime seat of the government.
COMMUNISTS CLOSE
Nanking was one of the focal points of the struggle between Nationalist forces and the communists of Mao Tse-tung to take over territories relinquished by the Japanese. Shanghai is another point of contention.
Gen. Chiang's troops accompanied Japanese surrender envoys to Nanking were quoted by the China Times as reporting "Order in the city is good but some troublemakers are active three miles away."

RAF Speeding Demobilization
HAMILTON, Ont., Aug. 25.—(CP)—Rate of demobilization of RCAF personnel was increased today to 10,000 monthly. Air Minister Gibson said in an interview today. Facilities at London, Que. and at Manning Point in the headquarters of air commands across Canada will be extended to accommodate the increase in discharges.
Before the end of the Japanese war, the air force was geared for demobilization of 10,000 men a month. But with the war over, headquarters were making efforts to get ahead of the demand as quickly as possible.
As far as is known, he said, more than 200,000 RCAF personnel are in Hong Kong will come back to Canada by plane. They will come home by ship.
Strength of the RCAF, which peaked at wartime peak of more than 200,000, now has dropped to about 160,000.
The minimum staff by the end of the year the three squadrons which will engage in transport of prisoners will be sent in Canada.

To Stand Trial
MELVILLE, Sask., Aug. 25.—(CP)—Killing of a woman 18 yesterday was committed for trial at the next sitting of King's Bench court here as the court showed and killing his 64-year-old father, John, Mansfield, was charged with the murder of his father, John, at Goudreau, Sask., last July 28.
O.C. FOOTBALL
LONDON, Aug. 25.—(Reuters)—The Ontario Canadian Football Union today announced that it had accepted the 1946 season.

Farmer Found Dead
Paul Reel, 64-year-old farmer of the Hamilton district, was found dead, southeast of Edmonton, Friday afternoon, after he had been on his farm home, according to RCMP Police said that he had been discovered in recent weeks.
Vets' Insurance Act Is Extended
OTTAWA, Aug. 25.—(CP)—Extension of the Veterans' Insurance Act to include four years of service (insured or the wife or husband) was announced today by Veterans' Affairs Minister Macdonald.

Storms Delay Allied Landings For Two Days

Continued from Page One

Monday night and Gen. MacArthur's statement said "a series of typhoons" are raging in the western Pacific between Okinawa and Japan.

The dramatic postponement of the landing was divided upon as the first movements had begun.

The initial Allied landing forces were making final preparations to disembark from Okinawa.

Seaborne forces already were in the sea. Several convoys of supply vessels have left Manila, Olongapo and other ports.

The delay was not expected to disrupt any aspect of the operations. It now can be disclosed that Gen. MacArthur's plans were sufficiently fluid to make quick changes, particularly if the advance party reported the Atsugi airfield was inadequate for transport planes or unprepared situations developed.

The massive Pacific Allied fleet augmented by mine sweepers and transporters was off Japan. Reports today from the warships reported they had 100 major calibre guns ready to point at Tokyo, but just in case any trouble developed.

when they were told to move in there.

WAVE MISS TOKYO

Around noon today, weathermen were tentatively located one storm centre in the Philippines Sea, 50 miles south of Tokyo and moving northeast. Earlier planes flying from Okinawa had reported indications this storm would miss Tokyo Bay, but weather observations were subject to change.

The postponement was announced by Gen. MacArthur, as Japanese messages to him detailed damage to communications facilities in the Tokyo area—selected sites of the advanced landings—on the evening of the night storm.

Also postponed, presumably until Sept. 3, were Allied landings at the southern tip of Kyushu, south-east of the main island.

General MacArthur indirectly confirmed yesterday's radio announcement that troops would land on Kyushu, but gave no date. Tokyo had reported that the landings would begin there Sept. 1.

WIDE AREA FLOODED

Japanese investigators reported to General MacArthur earlier today that typhoons had turned the landing airfields into a morass, disrupted communications and flooded a wide area marked for occupation.

Admiral Raymond A. Spruance, whose Fifth Fleet will help support the landings, said the occupation forces would go ashore with full combat equipment at Okinawa and Kyushu beaches from all types of ships commonly used in an amphibious invasion of hostile shores.

Admiral Spruance said he was confident that mine sweepers would clear safe channels through American and Japanese mines into Tokyo Bay, where Japan will see the Allied airdrop terms aboard.

SET UP HOSPITAL

Seabee units will follow combat troops ashore to ready installations for liberated prisoners and to assist themselves. The Japanese already have been ordered to set up a 500-bed hospital for the prisoners and interned at Yonaguni.

Japan, meantime, continued to carry out General MacArthur's preliminary requirements for the occupation. Withdrawal of Japanese troops from the occupation area south of Tokyo was expected to be completed today, radio Tokyo said.

Japan is under orders to disarm completely all ships in Tokyo Bay, immobilize all vessels in the bay, clear all minefields on the approaches to the bay and render inoperative all defense guns overlooking the area by 5 p.m. today.

ORDER ON AIRCRAFT

General MacArthur forbade even those Japanese planes needed to carry out his surrender directives to fly more than two miles from the Japanese coast today, or over the Tokyo area at all beginning tomorrow.

He said the orders were issued "in order to avoid incidents that might result in case Japanese planes appeared unexpectedly or unannounced in proximity of the United States fleet."

At Guam, Pacific Fleet Headquarters announced that a 1,200-ton Japanese destroyer would leave Yokohama today, en route to the Japanese navy base there.

General MacArthur granted permission for the Japanese to use their guns will be removed or rendered inoperative.

The Japanese notified General MacArthur that they have been with four missing Japanese submarines and feared they may have been sunk. The one said that orders had been transmitted to the submarines to surface and return to Okinawa to avoid "unfortunate incidents."

NURSE AND PATIENT AS THEY ARRIVE FROM NORTH—Nursing Sister Anne Arrand of Saskatoon, and her patient, Mrs. Elizabeth John of Caribou, B.C., are pictured just as they arrived at Northwest Air Command here. The flight to bring out the Indian woman was the first made by the RCAF into the area near the headwaters of the Stikine river in B.C. It is Mrs. John's first trip out of her home in the mountains.

First Division Troops Begin Journey Home

Continued from Page One

way Sunday, followed by the Carleton and York regiments, of St. Stephen and Woodstock, N.B., and the 8th Infantry of the Third Field Regiment, Montreal.

Sept. 8 will see all units going out as such from this area with personnel from headquarters staffs, who are bound for Canada, away by Sept. 12. The troops were told to be prepared for six weeks' stay in the United Kingdom, although it is not expected a great number will be there that long.

First embarkations are expected between Sept. 15 and 19. The warning on the possibility of embarkation being as weeks away discouraged the painting of too many pictures of speedy dispatch and was designed to help the troops to schedule properly their spending while in the United Kingdom.

SALES UNEXPECTED

It is believed here the postponement of the division's departure from Holland from Aug. 30 to Aug. 31 will not affect the ultimate sale of the division's equipment.

Caribou Head Village is located on Mistaken Island, near the head waters of the Stikine river and the lake is not large enough to make possible a very long run for landing or taking off.

The Norseman flying from Edmonton landed on Monday night at Watson Lake where Flt. Lt. N. Williamson, medical officer for the air base there, whose home is in Toronto, was added to the crew. The next night was spent at Sturgeon Lake and the following morning the aircraft landed on Dease Lake where Mr. Sampson was picked up to guide the ferry flight the rest of the way to the Indian village.

Landing was made at Melanau Lake where Flt. Lt. Williamson examined Mrs. John who was suffering from a severe cold and flu, in his opinion to be flown out to the hospital and treatment. The doctor kept busy during his stay in the village examining nearly all the Indians who made up the population of about 80.

The lake was as smooth as glass and not a breeze stirred when the heavily laden aircraft took to the water. The flight, it was found that unless a breeze sprang up it was not possible to return to Dease Lake that evening. Flt. Lt. Williamson and his patient were unloaded from the Norseman and with this decrease in load the pilot managed to get the plane back to Dease Lake where it landed on Thursday morning.

Claim Canuck For Douglas Amaron

FARMINGTON, Hampshire, Eng., Aug. 25.—(CP)—A Canadian general court martial sat in camera for more than four hours yesterday taking evidence from two defence witnesses in the case of Douglas Amaron, a native of Windsor, Ont.

The charge read in part that Hile "in Germany between November, 1942, and March, 1943, voluntarily acted as an informer for the enemy of information useful to the enemy obtained by him from Allied prisoners-of-war." The maximum penalty on conviction is death.

DEFENCE WITNESSES

The defence witnesses were called late in the day while Norman Leach, a member of the Canadian army, was giving evidence in open court about a meeting in a German prisoner-of-war camp late in the winter of 1943 among a number of army warred soldiers and Hile.

When their testimony was completed, the court adjourned until Monday when the public again will be admitted to the hearing.

The trial of Hile, a member of the Essex Scottish Regiment, was convened in the reading room at Curragh Barracks, Farmington. Throughout the hearing Hile sat at a table with the other prisoners-of-war.

Col. R. H. E. Walker of Montreal. He was brought into the court by a British soldier, a member of the Canadian Provost Corps and was handcuffed to one of them, but the handcuffs were taken off during the hearing.

Nippon Suicide Units Fighting Hard in Korea

Continued from Page One

army has to be brought up to the line since enemy-held forts. Japanese commanders were giving members of the suicide units full access to food, plunder and rape before the final battle, the broadcast reported.

The Soviet communists said approximately 200,000 Japanese prisoners had been taken in the past six days and that the "reception of surrendering Japanese units and formations continues."

The Tokyo radio reported "outward incidents" in Manchuria and elsewhere. It said that the "southern half of Sakhalin Island, a broadcast claimed Soviet troops were "looting, pillaging and looting" more in Manchuria, and other Soviet forces in North China were "literally attacking the Japanese."

LIBERATE PRISONERS

A Soviet communiqué last night reported that Red Army airborne troops seized two Korean towns, Chosun and Kanku, 200 miles south-west of Vladivostok. A third Korean town, Kishu, 300 miles southwest of Vladivostok, was captured by Soviet troops.

The communiqué also said Soviet troops had liberated 1,500 prisoners, including 1,200 generals, from a prison camp in the Mukden area in Manchuria.

The communiqué also said Soviet troops had liberated 1,500 prisoners, including 1,200 generals, from a prison camp in the Mukden area in Manchuria.

Lt.-Col T. G. Brown Is At East Station

Lt.-Col T. G. Brown, ED, has joined his unit, the First Battalion, Edmonton Fusiliers, at St. John's, Nfld., after a two-week furlough.

When he was said that about 10 per cent of the Fusiliers' strength is composed of Edmonton and district men.

In 1946, when the battalion was mobilized, Lt.-Col. Brown was senior commander, guiding various stations at the west coast, until December, 1944. Other duties have included guarding Atlantic cable stations and the power installations at Niagara Falls. Some of the original unit members have seen action overseas.

Lt.-Col. Brown was attached to the South Saskatchewan Regiment in England from Aug. 1942 until Jan. 1944.

Refloated Skeena

REXHAVIK, Iceland, Aug. 25.—(RUP)—The former Canadian destroyer Skeena which was blown ashore in Iceland during a hurricane.

ALSO FLEW TRIAL

Also scheduled to be tried, on two charges, was a member of the German army, a prisoner-of-war in Germany, is the P. B. Martin of Riverside, B.C. (half brother of the same unit).

McLean, who escaped from prison, October, 1943, and reached England in August of the following year, was charged with desertion from the army last June and was flown from Canada for the trial.

He is said to be a member of the Canadian Legion's Saskatchewan branch in Regina, Sask., and appeared before the court in civilian clothes.

In answer to questions by the prosecuting counsel, Lt.-Col. J. D. Watt of Ottawa, McLean told the court that as a result of something he was told he went to the bus of Sgt. Maj. H. B. Germany, Beasley told him that he was killed.

NOTHING WRITTEN

Beasley asked me and six other warrant officers to his hut," McLean said. "The accused was nothing at all as a result of anything Beasley did must of the question."

The witness said Hile was "free and easy" when he came into the room and showed no reluctance in answering questions. No promise of favor nor threat was made to Hile.

Beasley told him he had received orders from soldiers in the working camp where Hile was working," McLean said.

McLean said he was asked to ask him questions about these remarks. Hile was sitting on the table and nothing was written down.

McLean said that the day ended at this point when Col. Walker submitted there was a meeting room in the barracks, and questions and answers.

Defence counsel contended this meeting room was a prison equivalent of a court of inquiry and was held in the closed door of a "passing" camp at Hindenburg.

He said he felt the discussion of how this "court of inquiry" came about could not be held in open court and at his request the public were cleared from the court room and evidence of the two witnesses whom he called was taken in private.

Earlier in the hearing two other prosecution witnesses—Mr. E. Lawrence and Mr. R. H. Harwood, who comes from Portmouth, N.S., testified about Hile's activities and conversations with him in the passing camp at Hindenburg.

Church Meeting Continuing Here

Alberta Conference, the United Church of Canada, will continue its summer school of religious next week, until Thursday, Aug. 31. On Sunday at 3 p.m. the Rev. Jesse Arp, moderator, will speak on "Public Service of Worship," this

Atomic Fires Are As Simple As Those in Ordinary Stove

By HOWARD W. BLAKESLEE
Editorial from Science News

NEW YORK, Aug. 25.—(AP)—The atomic fire in the graphite oven at Hanford, Wash., where the plutonium for atomic bombs is made, is as simple as the fire in a stove.

For the stove you need fuel, oxygen and a match, if you could throw away matches, and start your stove merely by turning on the oxygen, and extinguish the fire by turning off the oxygen, you would have a counterpart of the atomic fire.

For the atomic fire in Washington, the fuel is common uranium (238) metal. The oxygen is neutrons, the particles ejected from cores of atoms. These neutrons are as invisible as the oxygen in the air but like oxygen they are everywhere.

REGULATE OXYGEN
In your home stove you have drafts to regulate the oxygen supply. In the atomic stove you use a bar of boron steel, or maybe a bar of cadmium. Either one regulates the atomic "oxygen" by absorbing neutrons.

The Hanford oven really is part of the eternal fire that burns everywhere on earth, on the other planets and in the stars. These fires are visible in the flames of the atomic bombs.

They are not always visible on earth, however, since they are usually minute and, even though, to be comparatively minute in the Hanford oven, being only a small fraction of one percent of the energy in the burning atoms, that the graphite oven does not glow.

These fires are made by six kinds of atomic particles. All are emitted from atoms. The six are: Electrons, small known bits of matter, bearing negative electrical charges.

Protons, about 2,000 times heavier than electrons, with positive charges.

Neutrons, weight same as protons, with no charge.

Positrons, weight same as electrons, charge positive.

CHARGES NEGATIVE
Mesotrons, weight between electron and proton, charges negative.

Alpha particles, made of two neutrons and two protons, charge double.

Also emitted are the forms of light known as X-rays and gamma rays. The latter two rays are identical.

That these particles are real

HOME SWEET HOME—Home at last, Pte. James Huntley, Calgary, and Capt. B. Morgan, Leamington, touch Canada's soil in veneration as their ship, the Duchess of Richmond, docks at Quebec.

fire, of the eternal sort, is shown by the fact that part of the earth's interior heat is due to the particles and energies emitted by radium.

Three of the particles, electrons, protons and neutrons, are the blocks out of which all atoms of all kinds are made. The other particles seem to be byproducts, that appear when an atom gets too hot, or too highly charged with electrical or magnetic energy.

EMERGE FROM ATOM
Any kind of heat will cause one or more of the particles to emerge from an atom. The particles come out at high speed, but does not travel far. Air stops most of them in a few inches. The neutrons travel

fastest and farthest; they may go several hundred feet.

These emerging particles collide with matter, bearing negative electrical charges. These collisions alter the atoms in some way.

Best known of the changes are the chemical reactions of fast neutrons, and of cooking a meal. Ordinary fire is one of the reactions caused by the particles.

The collisions frequently knock out of atoms more of the same particles, either of the type they are of or of a different kind to make the pile. Only these particles are able to penetrate to the cores of atoms where the atomic energy may be released from the cores. Therefore the particles are the tools with which scientists hope to tap atomic power. They are the only known tools.

Japs Committing Mass Hara-Kiri Before Palace
"Deep sorrow and gloominess and cruel 'hara-kiri' have been beaten."

Everything is dark and gloomy," he said. "Transportation is in a confused state. Homes are leaking with rain. Everything is in dire straits. The Japanese have no belief in health conditions are bad."

"The Japanese are tending defeat."

FCC monitors said the report, carried in a Japanese-language broadcast beamed to North America, gave no details of the mass suicides.

RECOVER "LOST FACE"
Though Tokyo previously had announced that her war minister and chief of naval general staff at the time of her surrender had committed suicide to atone for Japan's defeat, this was the first intimation that Hara-kiri had spread to the Japanese masses.

A Tokyo broadcast a few hours earlier advised the Japanese people to "acknowledge the fact that Japan had lost the war and that she is a defeated nation."

"Only with the honest and true acknowledgment of this fact can we make a beginning of the new Japan," the broadcast said.

FURTHER ADMISSION
Going even further, the influential newspaper Asahi said in a lengthy editorial quoted by Tokyo that Japan actually had lost the war "long before the appearance of the atomic bomb and the Soviet declaration of war."

It was clear from the outset that Japan could not carry on modern warfare, which calls for tremendous aviation and a wide variety of strategic materials, with her own resources alone," Asahi said.

The newspaper said that when American planes, warships and submarines stepped up their offensive, Japanese ship construction was unable to keep up with the war.

In one month alone this year, Asahi estimated, Japan lost 120,000 tons of shipping. The shortage of transportation for shipment of vital war materials into the home steadily grew worse and worse and the building up sufficient submarine resources, Japan, Manchuria and China became a hopeless task.

Perils, first mentioned in a magazine in the 19th Century, are still worn in court by English judges and barristers.

Isley Explains Need to Continue Price Controls

Continued from Page One

our prices and incomes and in our economic system generally and to avoid the chaos which has been the aftermath of war, but we cannot relax our effort until we have reached the goal."

Mr. Isley confirmed that meat rationing was going into effect "soon," and said sugar and butter rationing will continue because there is not enough to go around under unrestricted distribution.

Mr. Gordon said that perhaps the most important short-coming was that of foodstuffs and Canada had a share in meeting the needs of the world. Mr. Isley said victory over Japan had little immediate effect on the world shortage of foodstuffs.

CONTROL CONSUMPTION
"If we are going to help meet the needs of the hungry areas Canada will have to control her own consumption," he said.

Idea rationing already announced will soon go into effect. We have no choice about continuing sugar and butter rationing since there is not enough to go around under unrestricted distribution.

Compared to most countries we are a land of plenty. We cannot ignore our responsibilities to those who fought the good fight under enemy occupation. We cannot justify refusal of assistance to our Allies in their extremity. Without food, political stability is impossible; we must not permit misery to sow the seeds of discord and misunderstanding."

Mr. Gordon said he doubted if Canadians generally realized how far the prices board had gone in removing production restrictions in the last 18 months the number of production restrictions had been reduced from 200 to 40.

ENCOURAGE PRODUCTION
"And generally speaking those that remain encourage the production of essential civilian goods," said Mr. Gordon.

In the case of textiles, for example, and it is very important because the board has just introduced a system of production directives supplemented by arrangements whereby the board gives a priority for necessary materials to the manufacturers concerned.

The sole purpose of these directives and allocations is to increase the production of necessities, and to ensure that there is no limit production. The emphasis is the other way around.

There is no immediate prospect of removing these textile directives. We are likely to face shortages of textiles for some time yet. While military requirements are being rapidly curtailed, needs will make heavy demands on world textile supplies.

"There is a variety of other shortages which need continuance of control measures. There is a serious shortage of bauxite for metal, for example, and building materials will have to be guided into the kind of houses which are urgently required for demobilized servicemen and women. Demands on pulp and paper supply continue at a very high rate."

CAUSE INFLATION
So long as necessities are in short supply, and as long as many thousands of people are eagerly looking for articles that have been off the market in the last few years, the removal of price controls could not fail to start a sharp inflationary rise in prices, said Mr. Gordon.

"And it is not just the scramble for limited supplies that would force prices upward. We must have the problem of higher costs of production, particularly during the change-over when there are transitional costs to be met and when volume is reduced in small industries converting to peace-time activities. Cost may be temporarily high during the change-over, but as volume increases, as competition revives, and as more skilled workers return to their normal occupation, these costs should decrease."

"After every major war in the past, prices continued to rise sharply following the end of hostilities, and later collapsed. In Canada, the worst part of the last war's inflation occurred in the period between the armistice and the middle of 1920. Then came deflation and the collapse with its resulting losses, bankruptcies, unemployment, and mortgage foreclosures. Nobody wants to repeat that experience—unless it is a few unscrupulous speculators."

CAN STOP FLUCTUATION
The record of our anti-inflationary controls over the war years shows clearly that we can prevent that sort of crazy fluctuation of prices. If the government, aided by the business community, steadily in its stabilization policy, and if Canadians will continue to support the needed controls as they have during the war, Mr. Isley said, the government was not weakening in its determination to use all means to prevent the Canadian people from the disaster of severe post-war inflation.

"We are still up against the direct consequences of war—shortages, relief and reconstruction needs, and post-war purchasing power," said Mr. Isley. "Mature removal of controls would invite chaos. On the other hand, the mere continuance of formal orders is not enough in itself. The co-operation of all citizens is necessary if the anti-inflationary controls are not to break down."

"The success we have thus far had in fighting inflation has been the direct result of the individual actions of Canadian citizens—consumers, as workers, as farmers, and as businessmen. Their loyal acceptance of rationing regulations, their refusal to deal in the black market, their self-restraint in limiting their purchases to their needs in con-

Priority Plan Is Announced For New Trucks

Continued from Page One

OTTAWA, Aug. 25.—(CP)—Munitions Minister Howe announced last night a new truck rationing system under which dealers in new trucks will be allowed to distribute them on the basis of priority certificates issued by tire rationing officers.

Effective Sept. 1, the new order will require the sale of new trucks in 1942 under which purchasers were required to apply directly to the war vehicle control board for permits to buy new trucks.

Two general priority categories are established under the order, designed to decentralize administration and speed up distribution of new trucks, which from now on will come into dealers' hands at an accelerated rate.

The two new priority categories will be known as "Class A" and "Class B."

"Class A" certificates will be issued for the following purposes: Ambulance and funeral services; fire-fighting services; lumbering, mail, express and freight services; public garbage disposal and other public sanitation services; public police services; transportation of materials and equipment; the construction of houses; trucking services (licensed commercial service vehicles); and other public utility services.

"Class B" certificates will be issued for the following purposes: Wholesale delivery of dairy food and petroleum products; Dominion, provincial and municipal government manufacturing or furnishing supplies for the armed services; subject to certification by the government official, the production of new such production or supply utilities—light, heat, power, telephone, telegraph, street, railway and other public transportation services; and other public utility services.

"Class B" certificates will be issued for the following purposes: Wholesale delivery of dairy food and petroleum products; Dominion, provincial and municipal government manufacturing or furnishing supplies for the armed services; subject to certification by the government official, the production of new such production or supply utilities—light, heat, power, telephone, telegraph, street, railway and other public transportation services; and other public utility services.

"Class B" certificates will be issued for the following purposes: Wholesale delivery of dairy food and petroleum products; Dominion, provincial and municipal government manufacturing or furnishing supplies for the armed services; subject to certification by the government official, the production of new such production or supply utilities—light, heat, power, telephone, telegraph, street, railway and other public transportation services; and other public utility services.

"Class B" certificates will be issued for the following purposes: Wholesale delivery of dairy food and petroleum products; Dominion, provincial and municipal government manufacturing or furnishing supplies for the armed services; subject to certification by the government official, the production of new such production or supply utilities—light, heat, power, telephone, telegraph, street, railway and other public transportation services; and other public utility services.

"Class B" certificates will be issued for the following purposes: Wholesale delivery of dairy food and petroleum products; Dominion, provincial and municipal government manufacturing or furnishing supplies for the armed services; subject to certification by the government official, the production of new such production or supply utilities—light, heat, power, telephone, telegraph, street, railway and other public transportation services; and other public utility services.

Japanese Believe Four Missing Subs Are Possibly Sunk

Continued from Page One

MANILA, Aug. 25.—(AP)—Japanese Imperial headquarters notified Gen. MacArthur today that four Japanese submarines are missing and may have been sunk. Repeated efforts to communicate with them have failed, the Japanese said.

The submarines, ordered to return to Manila, had been instructed to proceed surfaced, with all personnel and equipment, to Manila, it was announced Friday from Warburg headquarters.

Bomber Coach
WINSTON, Aug. 25.—(CP)—B-29 Superfortresses with Winston Blue Bombers, before they were assigned to coach of the 1945 edition of the Bombers, it was announced Friday from Warburg headquarters.

"Prevue" a program designed to acquaint you with some of the artists in the Associated Transcription Library.

Associated is unquestionably the highest quality transcribed library available. A recorded program service, especially designed to fill a definite need . . . a transcribed library for radio stations built to the highest standards of recording quality, musical quality and the quality of performing artists.

Guest Organist Is Leaving City

LAC G. Herald Keeler will conclude his summer organ work at the First Presbyterian Church this Sunday. Mr. Keeler, who has been stationed at the North-West Air Command in Edmonton, comes from Vancouver, B.C., where he was organist at St. Helen's Church. Since joining the Air Force, he has studied in Hamilton, Toronto and Montreal. Then for a number of months he has been station organist at the North-West Air Command. Mr. Keeler leaves Edmonton this week for Vancouver, where he will take up his new position, that of organist at Canadian Memorial Chapel. A recital of organ music will be given at the First Presbyterian Church by Mr. Keeler this Sunday evening at 7:30 p.m.

Former Resident Is Guest Soloist

Guest soloist at First Presbyterian Church Sunday evening will be Miss Violet Cumming of Winnipeg, former contralto soloist at the former church here. At present, Miss Cumming is soloist at Crescent-Fort Rouge United Church and in the spring soloist in a performance of Mendelssohn's "Elijah" gives in Regina.

Plan Joint Relief Efforts

Joint efforts are being planned by Protestant and Roman Catholic leaders in Germany to bring the "spiritual people" to the German people. It is announced by Dr. Hans Schoenfeld, representative of 12 World Council of Churches, who has returned to Geneva from a two-month tour of Germany.

Dr. Hans Schoenfeld, representative of 12 World Council of Churches, who has returned to Geneva from a two-month tour of Germany.

Joint Services to End This Week

Last of the joint services between Knox and Metropolitan churches this season will be held Sunday, with the Rev. R. M. Thompson in charge. Mr. Thompson will preach on "Gleanings in our time" at the morning service and the Rev. G. B. Switzer, professor of church history, Union College, Vancouver, will be guest preacher in the evening.

Dr. Switzer has been giving a series of lectures at the summer school of St. Stephen's College and will have as his theme Sunday evening "Learning from the Russian Church."

Sets Up Headquarters

Dr. Paul Neff Giesler, who was named European Methodist in 1944 has arrived in Geneva to set up official headquarters. He has jurisdiction over Methodist churches in eleven European countries and 12 French North Africa.

TODAY'S MESSAGE

Christian Energy

THE discovery of atomic energy almost on the eve of peace was hailed by scientists as marking the dawn of a new and revolutionary age. But moralists tempered rejoicing with warnings against abuse of God's new gift to man. The world saw a dazzling vision of advancement, but it also saw the dark and terrible alternative of self-destruction.

Such an alternative would mean the ultimate triumph of the spirit of evil. The Christian is well aware of the enormous potency of evil; but he is equally cognizant of the superior might of good. When other men talk of a new miraculous discovery being harnessed to destroy the earth itself, his mind converts the warning into a challenge. He knows that countless millions like himself must be reckoned with whenever such a cataclysm is envisioned.

There will be no danger of men plunging into a final nightmare of diabolic self-annihilation so long as the Christian spirit survives. When such an indescribable horror is pictured to his imagination, the Christian, rather than letting dismay run through his mind, merely resolves to make his voice more loudly heard and his influence more deeply felt in the councils of the nations.

The atomic age can also be an age of greater Christian affirmation and action. A great Christian energy is already being unleashed to convert the ruins of war into a finer and greater world of peace. This is the energy that will assuredly prevent science from becoming an enemy rather than an ally in plans for the new world in process of creation.

ST. ANDREW'S PRESBYTERIAN CHURCH

The Bulletin By Hal Dean

WATCHING the horse pass the stand four times in a single race is something quite new to devotees of the sport in Edmonton, but they appeared to enjoy the novelty provided in the Endurance Handicap, featured fifth event of Friday's card at the Exhibition track.

In winning the race over a distance of "about" one mile and five-eighths, Pepper Pot established a strong claim to distance honors. He had just previously won three consecutive mile and sixteenth races—August 1 and 3 at Regina and August 15 at Edmonton. He carried Eddie Johnson on each of these occasions and again yesterday. Friday's win was worth \$575 to Pepper Pot.

The "Pots" outstayed the "ladies" in the fourth race yesterday afternoon, the first five entries finishing in this order—Miss Lady, Genie's Boy, Cave Boy, Lady Barker, Lady Luckin. And Pepper Pot, a black mare ten and six, and the chestnut mare Jay Yel seventh.

PAUL BAILEY THIRD
PAUL BAILEY, who was third in a pair of seconds, was not lucky at the Edmonton races on Friday, as he moved up to fourth place, just three points behind Ray Russell, whose two seconds and one brace of thirds gave him a total of 70 points.

Eddie Johnson gathered in a single first winning with Pepper Pot in the Marathon feature and he also picked up a win of \$100 in a total of 70 points for the Edmonton meeting. "Pepper Pot" had a line win from Man of Iron in the top half of the double.

Following in the standard of Joe's taking part in the Edmonton race meet:

E. J. Johnson	14	9	12	70
R. Russell	11	12	10	40
P. Bailey	11	12	10	40

Next Game Sunday Leo Douzich Hurls Arrows

LEO DOUZICH, Arrow speedball, set the boys on top in the three games played so far in the best of seven city junior baseball title series Friday night when he checked Arrows to their second straight win, 4-3, before a large crowd at a thrilling ball fight at Clarke Stadium.

With Arrows behind one game and dropping the series, last Sunday, Douzich stopped the Canadians on Wednesday night to give the boys a 2-1 win. Rain Moran club an even break in the first two contests and then went in again last night to beat the winners of the league schedule on five well scattered hits.

Next game will be played Sunday at 3 o'clock. A. Theodor, hunter, a long high ball in center field by Paul Sorensen with Edgar Nott. Arrows won the second inning but Douzich out in front 2-1 and after that he hurled winning ball all the way.

HICKS SUFFERS DEFEAT
"We Hicks went the distance for the Canadians, hitting up eight hits, including the home run triple by Adolph Kelner, and lost his first game in a best of seven series."

Canadians took a 3-0 lead in the second when Bill Gaudin hit a sharp single to right field and scored on an error. But the margin was soon wiped out when, with two out in the top of the second, Nott singled to left and Sorensen followed up with his last home run.

ARROWS TALLY 7 MORE
Neither club was able to threaten until the seventh when Arrows scored again, two runs, when they went to the plate. Kester started the frame with a single to the left field, and then pitcher Emil Seibel scattered him in Ray Stewart, next up, made a bases on an overthrow at first and then pitcher Cyril Thomas and then Ted Brown scattered Douzich's batsmen. Douzich was able to allow Stewart to make home with Arrows' fourth run.

Canadians came right back in the bottom of the seventh and scored an unopposed, but Arrows cut back.

Burns Deadlock
Fastball Playoff
Burns opened their best of three game series in the men's intermediate baseball playoffs by defeating Woodstock 4-0 last night at Boyle Street leaving the series at one game each with the first finalist. Played last night, the night resulting in a 5-5 deadlock. The winners had two big innings with four runs each, but the seventh and last frames that gave them the win. In the first inning, singles by Larry Galloway and Frank Taylor with runners ahead brought the first four runners in. Then Walter Hutzsack with two on, and singles by Jim Warner and Larry Galloway got their last four in the ninth.

Accounting for two of the losses, Burns were humbled by Ted Taylor in the fourth and Joe McNeil in the eighth, both coming within six runs.

Cricket Match Set for Sept. 3
Edmonton has been made to revive cricket in Edmonton this season without much success at present, but arrangements have been made for an inter-city match against Calgary on Labor Day at cricket's contribution to the city recreation and sports week. The game will be played at the golf links.

Edmonton has always held its own in these inter-city games, and it is expected that a good team will be raised if the actual cricket will turn out and practice before September 3. Percy E. Brown, a cricketer in excellent shape and now playing in the cricket team, has been asked to the cricketers' team.

Endurance Handicap to Parslow and Denon's Calgary Entry Pepper Pot Wins the Race, Five-Eighths

Today's Is Final Card Of Meeting

PEPPER POT, the Parslow and Denon, entry from Calgary registered his fourth straight victory when he won the 8900 Endurance Handicap, mile and five-eighths feature of Friday's racing at the Edmonton Exhibition track.

The 3-day meeting which began on August 11 closes today, the final event being the Revolver Handicap for three-year-olds and upward for the second round of \$1,000 offered during the meet. Today's racing starts at 2:30 p.m.

Pepper Pot trailed H. Pandry's Coordinator, co-favorite in the race, but moved out in front when called upon by Jockey Eddie Johnson, coming up a long, long Pagan Queen finished, strongly coming all the way from sixth position to gain the place berth just a length behind the winner.

Coordinating ran third and Some Do, who came fourth, was never a factor in the race. Pepper Pot paid \$2.50, \$4.15, \$2.80 across the board, while Pagan Queen's place paid returned \$4.5 and Coordinating's above were worth \$3.60.

Man of Iron to Miss Yang daily double tickets brought \$74.84, a total of 62 tickets brought \$1,000. H. Pandry's Golden Stable and the Aronide stable's Ex-Libris came home and the quinine came coming up with the Indians and so will not see Feller more than once.

Edmonton's remaining games with Cleveland, representing almost one-quarter of their schedule, are also picked up by a win of \$100 in a total of 70 points for the Edmonton meeting. "Pepper Pot" had a line win from Man of Iron in the top half of the double.

Following in the standard of Joe's taking part in the Edmonton race meet:

E. J. Johnson	14	9	12	70
R. Russell	11	12	10	40
P. Bailey	11	12	10	40

Next Game Sunday
Leo Douzich Hurls Arrows
TO 2nd Playoff Win In Row

Believe It Or Not
In 10th Round
Graziano Kayoes Cochrane
For 5th Straight Knockout
NEW YORK, Aug. 25.—(AP)—For the second time within two months, Rocky Graziano, the dead-end kid shot from the East Side, flattened welterweight champion Freddie (Red) Cochrane of Elizabeth, N.J., in the 10th and last round of a non-title bout in Madison Square Garden.

In taking up the fight straight key in a row Graziano floored the game but outclassed champion seven times in the last two rounds, all for counts of nine.

On Cochrane's last trip to the canvas the count had reached four when referee Henry Leonard waved his hands, indicating it was all over. The official time was 2:27 of the round against the 16 seconds of the 10th round in which Graziano flatted tied in his first meeting June 29.

Cochrane, who had won four of the nine rounds, was knocked cold, hit on his stool for fully five minutes and, as he tried to stand up, his leg buckled under him. He eventually was carried from the ring.

Graziano, at 154 pounds, had a fine command of advantage over Cochrane, the 147-pounder, in the second largest fight of the year, \$10,000, all of which was won by Graziano, who was favored by a 10-1 odds.

Woodcock Wins

Error Is Costly Mortons Blank Walk-Rites On First-Inning Counter

Scoring the only run in the opening inning, Ken McAuley's Morton's eked out a close 1-0 win over the talented Walk-Rites in a City Senior Girls' Fastball League encounter last night at Kingsway Park. By virtue of their triumph the leading Mortons stretched their lead to a full game over the second place Army and Navy Pals.

Five-Pin Tourney
A mixed doubles tournament sponsored by the Edmonton Five-Pin Bowling Association will be held at Recreation alleys from Sept. 3 to 8, as part of the sports week program.

Nightly competitions will be held commencing at 8 o'clock from Monday to Friday inclusive and the winners will meet in the championship final on Saturday.

Teams may enter as many times as they wish, with the exception that no winner of a night's competition will be eligible thereafter. Further details may be obtained from Jim Rutherford, president of the Five-Pin Bowling Association, from Vic Ballo, or at the Recreation alleys.

Trap Shooting
Vancouver, Aug. 25.—(AP)—Don Engleby of Vermilion, O. shot 90-100 targets Friday to win the 1934 Grand American Handicap trapshoot.

He shot 29 birds in 30 shots, a record for the event. The runner-up was J. C. Central, second game—Compton, 28-30.

By Nelson Shoots

Three Under Par

KNOXVILLE, Tenn., Aug. 25.—(AP)—Rain didn't bother Byron Nelson and he came slinking in with a three-under-par 69 Friday to take a four-stroke lead at the halfway point of the Knoxville open golf tournament.

Govering his shots in a down-pour, the shotmaker bracketed his sub-par round with an opening 67 for a 56-hole total of 126.

That sent him four strokes ahead of his closest challenger, amateur Freddie Haas of New Orleans, who placed a par 72 alongside his first round 68 for 140.

ing. Some old slouch even bet their own slouching on her own slouching. It's a real slouching first slouch in her Tech-nicolor first!

The ROAD AHEAD

by Capt. HARPER PROWE, M.L.A.

THE unexpected surrender of Japan and the ending of the war months, and perhaps years, ahead of schedule has upset all plans of a gradual change-over from war to peace time conditions. As a result of this we are all going to have to accept a great many inconveniences and a great many temporary complications until the change-over can be completed.

Most of us will keep in mind the fact that this sudden change in the course of the war has saved, as Mr. Churchill has pointed out, more than a million lives. That thought should make it easy for us to put up with any of the inconveniences or temporary complications which have resulted. But it will be well for us to consider some of the complications which we are apt to experience.

Instead of being able to demolish our men from the forces and our men and women from the forces, gradually we are going to have thousands of people suddenly looking for jobs at a time when jobs are going to be scarce. This means that many people are going to have to accept jobs of a temporary nature. It also means that thousands are going to have to live on unemployment insurance, out-of-pocket benefits, and possibly on straight relief. This is going to pose many problems. It is going to pose larger towns and cities where most people will not live while they are unemployed.

With the shortage of skilled men Continued on Page Twenty-four

Edmonton Bulletin

SECOND SECTION EDMONTON, ALBERTA, SATURDAY, AUGUST 25, 1945 PAGE THIRTEEN

Alberta Coal Output Shows Large Increase

Output of Alberta coal mines up to the end of July was 4,391,000 tons, an increase of 431,192 tons over the 3,959,808 tons produced in the first seven months of 1944, according to a statement released Saturday by John Crawford, chief inspector of mines.

Output for the month of July was 550,075 tons, compared to 422,884 tons in July 1944. For the year total, 43,893,400 tons were produced in 1944, compared to 39,598,808 tons in 1943.

Last year's bituminous fuel production for July was 387,310 tons, while sub-bituminous total was 150,384 tons for the same period. Edmonton mines produced 15,041 tons this July, compared to 12,365 tons produced in July of last year. Mines in this area produce sub-bituminous coal.

Sweeper Blows Up

PARIS, Aug. 25.—(AP)—A mine-sweeper blew up near Marseille, killing five Frenchmen and injuring five, the Navy ministry announced yesterday.

May Change Time

OTTAWA, Aug. 25.—(CP)—An announcement Thursday that the United States Congress will be asked to abolish daylight time next month made it certain that Canada would follow suit. Great Activity At Yellowknife Will Be Shown

More than 20,000 movie fans in the United States and Canada will soon be showing pictures of the Canadian north and biggest gold rush in Yellowknife, N.W.T., says Hamilton Wright, of New York, who was an Edmonton visitor last Friday after having seen from that northern mining centre.

Wright was asked by John F. Blake, manager of the station, to show the movie to the public.

ANNOUNCING THE GREAT NEW

GENERAL MOTORS TECHNICAL CENTER

Dedicated to the Achievement of

"MORE AND BETTER THINGS FOR MORE PEOPLE"

KEY TO ILLUSTRATION: 1—Administration Building and Entrance to Technical Center. 1A—Auditorium and Display Rooms Wing. 1B—Personnel Service Facilities Wing. 2—Future Expansion. 3—Research Laboratories and Supplementary Buildings. 4—Process Development Building. 5—Future Expansion. 6—Advanced Engineering Buildings. 7—Styling Section Building. 8—Lake for Cooling and Other Utility Purposes.

Unique and Outstanding Facilities for Research and Engineering in the Interest of Improved Products, New and Broader Service to Public Needs and Expanded Opportunities for Employment...

Continuing its recognition of the all-important relation of research and engineering to human progress, General Motors has long planned and now takes pleasure in announcing a noteworthy forward step in this direction—a great new Technical Center.

This "City of Science and Art," to be located just outside Detroit, is designed to provide the finest possible facilities—in the most inspiring and advantageous environment—for the research, engineering, styling and design which have long been fundamental in all fields of General Motors' operation.

The activities of the Technical Center will be in addition to the work of like nature performed by the various divisions of General Motors, and by the General Motors Proving Grounds.

The GM Technical Center is being established primarily in the

interests of constant improvement of all General Motors products.

But beyond this immediate objective is the broader one of exploring opportunities to serve public needs and human aspirations in new ways and with new things more desirable, more valuable and more satisfying than ever before.

In addition, General Motors has pointedly in mind that the development of such new means of serving will help to provide new and greater opportunities for employment—will naturally create new jobs for more people.

The great new GM Technical Center—inspiring evidence of faith in the future to which science and technology can guide us—will stand as a striking symbol of General Motors' goal—"More and Better Things for More People."

• SOME FACTS •

about the GM Technical Center

PURPOSES: First, to provide the divisions of General Motors with greatly expanded and reputatively fine research, engineering and design advantages in addition to those which they themselves enjoy. Second, to cooperate with educational institutions, foundations and distinguished individuals engaged in the pursuit of progress in science, engineering and the functional arts.

EXTENT: 350 acres of grounds upon which will be located a number of main buildings to begin with, many more eventually.

FACILITIES: Research and engineering laboratories, libraries, exhibits, studios, auditoriums, meeting halls, living quarters, dining rooms, lecture halls and offices.

ADVANTAGES: Advanced facilities in ideal surroundings, and an inspirational environment.

CHARACTER: Ultra-modern architecture and construction, assuring the finest conditions for work and study.

PERSONNEL: Approximately 2,000 employees.

To be open to the public at lunch and supper conditions to be announced.

COUGAR QUEEN OF CANADA IS B.C. WOMAN — Cougar queen of Canada is Mrs. Joan Milward Yates, Vancouver Island, who is seen, left, with a stuffed cougar and some antlers, and right, with her gun and horse. She bagged four mountain lions in night hunts, alone but for her dog.

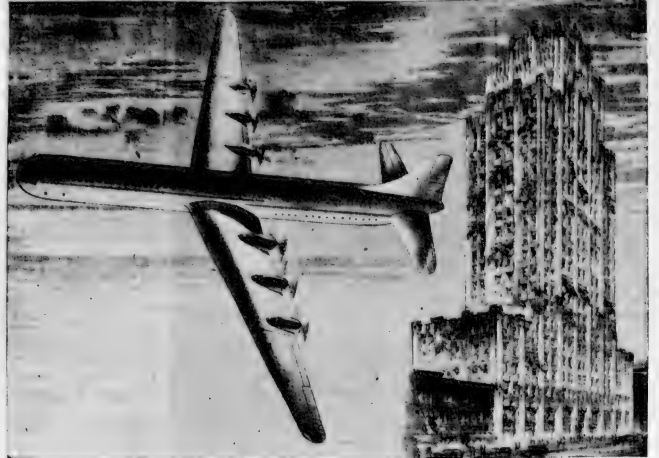

DREAMS COME TRUE — This is the first time a child has seen the ocean. Here Robert, son of George, is seen on the deck of the ship. Robert's father was crew captain of the ship when the Japanese squadron aircraft was on display at the Dominion Air station, Ottawa, for the RCAF Benevolent fund.

WOULDN'T DANCE — Because of the war, dancers were permitted to wear USO uniforms at the dance. The dance hall while Yank soldiers were present were barred. Pat, 18, and Alice, 18, and Marie, 18, USO hostesses from Santa Monica, refused to dance with the soldiers and had to be escorted to the dance by their husbands.

HEADS TRAIL RIDERS — Dr. George W. Fox, professor of zoology at the University of Saskatchewan, Saskatoon, is a member of the Trail Riders of the Canadian Rockies. He has led the camp through the mountains, through the wilderness of the region. Each year the expedition attracts a large number of people because of the organization's international membership.

FABULOUS NEW GOLIATHS OF THE AIR LINES NOW BEING BUILT FOR GLOBE-CIRCLING TRIPS — Its wing spread equal to a 23-story building's height, the new sky giant being constructed by Consolidated Vultee for Pan-American World Airways is placed in this sketch against a 21-story building to show its immense size. It will seat 204 passengers, travel at 30,000 feet at 340 m.p.h. with a range of 4,200 miles. It is a double-deck.

CAPTURED JAP OFFICER DIRECTS ATTACKS AGAINST JAPAN — Abandoned on Mindanao by his fellow countrymen, Lieut. Minoru Wada agreed to help Allied air units in their attacks on Jap installations and here he is seen in an Allied bomber, picking out landmarks well known to him and directing the Allies to the attack. At air headquarters he also helped brief air crews before they left to blast Jap targets.

FIRE CHIEFS MEET AT WINDSOR AND TEST NEWEST EQUIPMENT — How to hold a deluxe nozzle is taught Elnore and Jesse, given by Rex Maitland, Windsor fireman, at the Dominion fire chief's convention there. Fire chiefs are used in another demonstration as firemen show how to light raising flames fed by oil and gasoline. So great was the heat that spectators were driven back from the scene time and again.

BOB HOPE ABROAD — Bob Hope, before leaving "To Here and Here" appears in The Edmonton Bulletin each day, visits a Champagne Cafe in Paris with Jerry Colonna (far) and two attractive entertainers who are touring the army camps with Bob and Jerry.

LEAD SOVIET'S POSTWAR WAR — Two of the Soviet's key commanders who fought Japanese in Manchuria and Korea long after Hirohito announced Japan's surrender, are pictured above. Marshal K. A. Meres, left, directed the First Far Eastern Army in Korea. Marshal Rodion Malinovsky, right, led the Russian Trans-Baikal Army in a drive from Mongolia toward the vital Manchurian war center of Harbin and Mukden.

OUTSTANDING CONTRIBUTION — J. A. Wilson, director of Air Services department of transport, center, is pictured chatting with Air Marshal E. Leckie, chief of the Air Staff, and Col. the Hon. Colin Gibson, minister of national defence for air, following his acceptance of the McKee Trans-Canada Trophy from Col. Gibson. The award was made to Mr. Wilson "for his outstanding contribution to aviation in Canada and his assistance to the development of international aeronautics." The ceremony took place in the Air Control Room, Air Force Headquarters, Ottawa. The trophy is awarded yearly for outstanding contributions to Canadian aviation and was awarded Mr. Wilson for 1944. The miniature inverted silver trophy replica, held by Mr. Wilson was presented by Col. Gibson for his keeping.

District News in Brief

Mexican Official Lauds Farms Of Canada in Visit to Lacombe

By T. H. FORD
LACOMBE—Having spent the last four months in Canada studying agricultural conditions across the Dominion, Agustine Salas, Mexico, was a Lacombe visitor this week. He considers that crops in this area are in "very good shape".
Mr. Salas said he had been told that crops in the Lacombe district are considered below average, but "In Mexico the crops are smaller, and these crops you have would constitute an excellent year for us".
Mr. Salas is a prominent leader of the Mexican National Agrarian Union. The purpose of his tour was to study the Canadian farm organization with a view to introducing similar western schemes in Mexico and raise the standard of living of Mexican farmers in the Canadian level. Mr. Salas has visited the Quebec and New Brunswick provinces, and has already dispatched some of the better quality of Canadian grain to Mexico, such as wheat and corn.
Carroll, resident on the grain of the Lacombe district, said he was very pleased to see the different crop of the Lacombe district.
Mr. Salas has been in the Lacombe district for several days, and he was very impressed with the service rendered to the Lacombe district.
He is expected to return to Mexico on the 10th of the month.

Family Reunion to Mark Sons' Return

PONOKA—A family reunion took place at the home of Mr. and Mrs. A. C. Stinson recently to mark the return of their sons from the Canadian Army in the European war.
The family reunion was held at the home of Mr. and Mrs. A. C. Stinson, who have three sons, all of whom served in the Canadian Army.
The family reunion was held at the home of Mr. and Mrs. A. C. Stinson, who have three sons, all of whom served in the Canadian Army.

Views of British Papers Varied On Lend-Lease

LONDON, Aug. 25.—(AP)—The reaction of British newspapers today to the termination of lend-lease ranged from a threat of economic retaliation if America is not obtained from the United States to more optimistic views of the proposed Lend-Lease plan under which Britain might purchase foodstuffs and raw materials.
The Daily Herald, Labor, said in a seven-column front-page headline: "Britain will not be taken in by the Lend-Lease plan." In a news story it commented that it would be obtained from the United States.
The Daily Sketch, Conservative, said: "The Lend-Lease plan will launch strong countermeasures, including a powerful export drive and the buying of imports from outside the dollar area."
OFFERS "COMFORT"
Lend-Lease, however, Daily Express, Conservative, commented on the Lend-Lease plan, saying: "The Lend-Lease plan will launch strong countermeasures, including a powerful export drive and the buying of imports from outside the dollar area."

THAT LAZY GINKY

THE Teenie Weenies were busy hauling vegetables from their Teenie Weenie garden to the Teenie Weenie storehouse. The little folks usually hired one or two respectable mice to help pull their Teenie Weenie sled, but this year the Cowboy had a brilliant idea.

"Why not make that Ginky do the work?" he suggested to the General. "The lazy mouse does nothing but lie there in jail and we carry his meals to him. I'd make him work for his food."

The General liked the idea, and he told the Policeman and the Cowboy to harness Ginky to the sled. "He can help pull that carrot we dug yesterday," he said.

When the Policeman unlocked the door in the glass fruit jar which the little people used for a jail, Ginky brightened up, thinking that he was going to be freed. But then he heard that he was expected to pull the carrot. His ears drooped and he collapsed onto the old rag that served the jail for a bed.

"Do you want to kill me?" Ginky gasped. "I never worked in my life and it would finish me if I had to work."

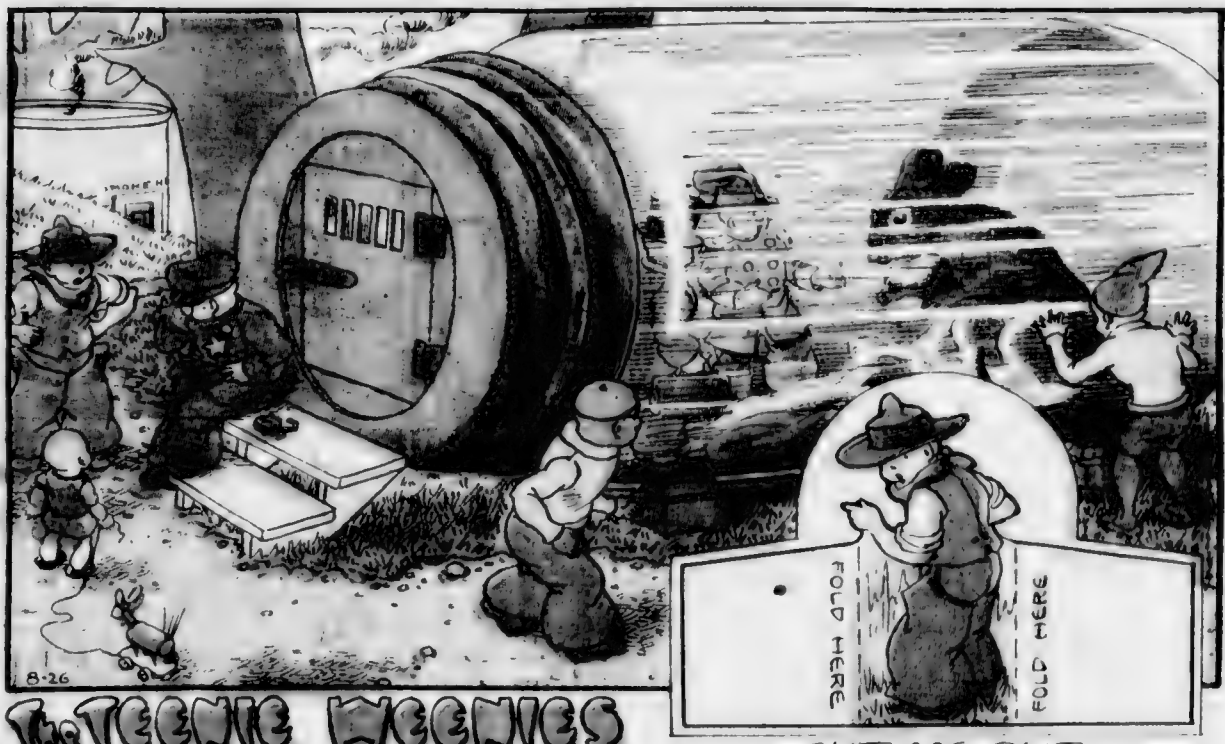

"You'll work or you won't eat," said the Policeman.

"I have a weak heart," Ginky wailed. "I'd die if I had to work. Besides, I made a promise to myself years ago that I would never work."

"Well," said the Cowboy, "it looks as though you were going to break that promise to yourself."

"But I've rheumatism in my tail," argued Ginky.

"You don't pull with your tail," said the Policeman.

THE TEENIE WEEENIES
BY WM. DONAHAY

CUT ME OUT

man. "You can rest your tail on the sled." "You can't make me work!" cried Ginky. "I'm a sick mouse!"

When the Policeman and the Cowboy reported to the General that Ginky refused to pull the sled on account of being sick, the General asked the Teenie Weenie Doctor to examine the mouse.

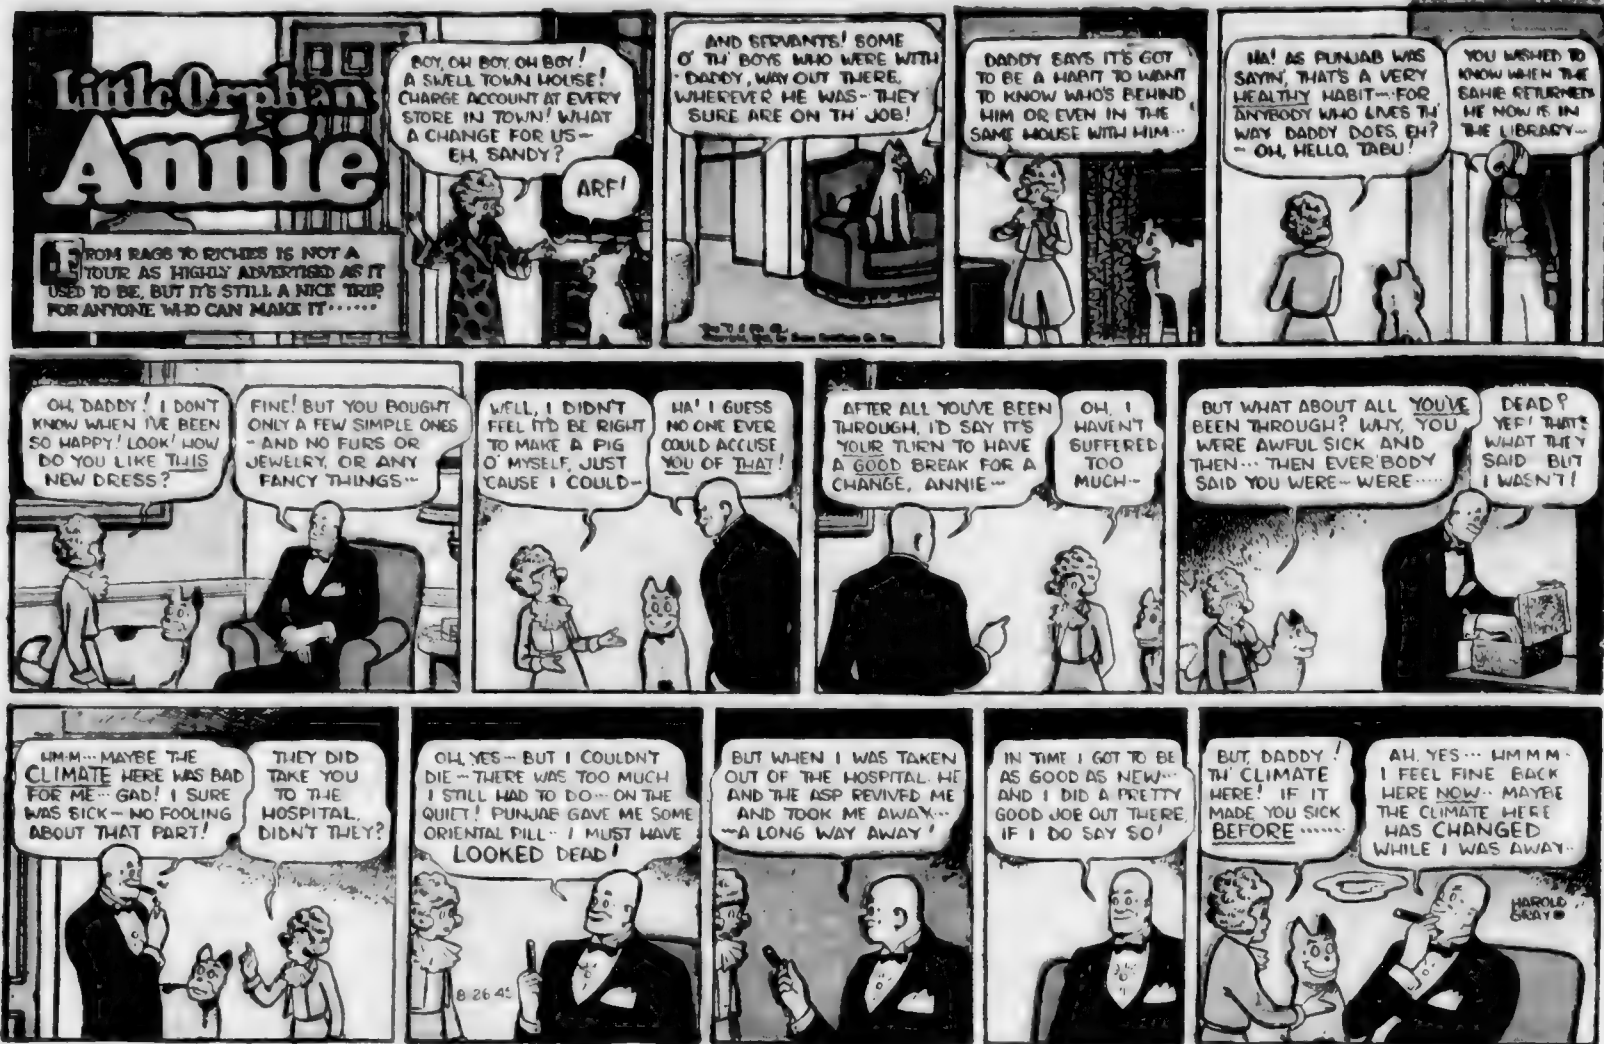

"There's nothing wrong with his heart and he's as strong as a rat," the Doctor reported after he had examined the mouse.

The Teenie Weenies tried to drag Ginky out of the jail, but he fought like a weasel. He also hit a hole right through the Policeman's hat. The General ordered that the mouse should be locked up and that his food should be cut to half a grain of corn a day.

After two days on that diet, Ginky agreed to work, but he was so lazy and pulled so little the Teenie Weenies were disgusted. They put him back in jail and hired two of the respectable mice to do the work.

THE LABOR OF LOVE
The Hartwell Home
British Biblical Scholar
—SPENT 17 YEARS OF INTENSIFIED LABOR
COUNTING EVERY VERSE, EVERY WORD AND
EVERY LETTER OF THE OLD AND NEW TESTAMENTS
FOR THE PURPOSE OF COMPILING A
TREE FULL OF BIBLE LORE.

The Bible contains 3,566,480 letters, 773,693 words, 31,102 verses, 1,189 chapters and 66 books. The longest chapter is the 119th Psalm; the shortest and middle chapter the 117th Psalm. The middle verse is the 8th of the 118th Psalm. The longest name is in the 8th chapter of Isaiah. The word "and" occurs 46,277 times; the word "Lord" 1,855 times. The 37th chapter of Isaiah and the 19th chapter of the Second Book of Kings are alike. The longest verse is the 9th of the 8th chapter of Esther; the shortest verse is the 35th of the 11th chapter of John. In the 1st verse of the 7th chapter of Ezra is the alphabet. The finest piece of reading is the 26th chapter of Acts. The name of God is not mentioned in the Book of Esther. It contains knowledge, wisdom, holiness and love.
